GREEN BOSS  
ENERGY  
(CANADA) LTD.

GREEN BOSS ENERGY (CANADA) LTD.

## A BETTER CHOICE FOR CLEANER AIR.

Sulphur, the compound used for lubricating Diesel fuel, has been removed from Petroleum Diesel to reduce the effects of acid rain on our environment.

Continuous use of Green Boss Energy's vegetable oil based Diesel Fuel conditioner, an environmentally friendly product, will lubricate and clean injectors, fuel pumps and cylinders walls.

Reduces fuel consumption.

### MADE TO FIT

- 247 mls (6 pack)
- 473 mls (6 pack/12 pack)
- 1.97 L (jug)
- 4L (jug)

## BENEFITS OF DIESEL FUEL CONDITIONER.

- 100 mls of this product treats 100 litres
- Will not void engine warranties
- University studies show at 0.2 % of fuel volume this product will reduce engine iron wear by approximately 35%
- Improves fuel lubricity and fuel economy
- Can be used at any volume for fuel system cleaning purposes
- Cetane enhancer
- Aids engine performance
- Is non-toxic
- Green Boss Energy's Diesel Fuel Conditioner is certified to meet American Society of Testing and Materials Standards (ASTM)

## THE FACTS.

Green Boss Energy's Diesel Fuel Conditioner will completely blend with Petroleum Diesel

This diesel fuel conditioner has a flash point of 130<sup>oC</sup>, the temperature at which it ignites; this is approximately 80<sup>oC</sup> higher than regular Diesel fuel, making this a very safe product to store, transport and use. This product is classified as non-dangerous goods and is non-flammable

## IN COOLER WEATHER

- Be sure that Green Boss Energy's conditioner is warm enough to pour.
- Add the conditioner to a partially filled tank. Then finish filling your tank with Diesel Fuel.
